Windy Ridge Orchard,
1746 Benton/Rte. 116 Road, North Haverhill,
3 miles east on Rte. 116 from monument in North Haverhill

Friday, April 24, 2026, 4:30PM - 6:00PM

Saturday, April 25, 2026, 9:00AM - 11:00AM

To maximize your success, match the right plant with the right soil and light conditions

- Keep unplanted trees cool, moist, and out of direct sunlight before planting or heeling in.
- Heeling in provides temporary care by digging a long trench on the shady side of a building, placing the roots of the plants in the trench, and then filling the soil back in.
- Keep the roots moist at all times (a warm, dry wind takes only a minute to dry out root hairs).
- When planting, make holes deep & large enough to ensure that all tree roots are not crowded, upturned, or exposed.

* Place trees so that the soil covers the root collar by not more than 1/2 inch

* Plan to water new plantings weekly if rainfall is inadequate
