Order Now! 2026 Late-Season Cover Crop Mix

Good For: Following silage corn and late vegetable crops
Contains: Winter Rye, Forage Oats, Turnip.
Application Rate: 75 lbs per acre. Sold in 50 lb bags
Best Planting Dates: September 15th to October 7th
Order by August 21, 2026

Please mail checks and order forms to:

Grafton County Conservation District
P.O. Box 64
North Haverhill, NH 03774

Order pick-up information: Expected delivery September 14th
Pick-up locations will be finalized after the order deadline for each mix. The more orders we receive, the more locations there will be. We will attempt to make convenient arrangements; either dropping the order off at your farm, or providing a local pick-up location, but you may need to drive to the Concord area to pick up your order if other arrangements aren't feasible. Please reach out by phone or email if you'd like to know more about pick-up arrangements.

Multi-Species Conservation Mixes for Soil Health
The New Hampshire Conservation Districts in cooperation with the NH Soil Health Partnership are offering cover crop mixes specially designed to improve soil health on NH farms, at wholesale prices. For more information on cover crops, contact the GCCD Office.
